SUMMARY

I'm Madhavan, pursuing a bachelor's degree in Computer Science and Engineering with a specialization in cybersecurity. I have earned the eJPT certification, strengthening my penetration testing skills. I've been passionate about computers and cybersecurity from a young age, I am always eager to learn, explore new technologies, and take on challenges.

EDUCATION

Geethanjali college of engineering and technology 2021-2025
CSE -Cybersecurity

- **CGPA** 7.3

Sarath junior college 2019-2020

- **MPC** 60%

SKILLS

- C
- Python
- Burp Suite
- SQL
- Wireshark
- Linux
- HostPenetration testing
- Web Application Penetration Testing

CERTIFICATIONS AND TRAINING

- eJPT v2
- Google Cyber Security Certificate.
- Ethical hacking workshop conducted by Supraja Technologies.

WORK EXPERIENCE

Security Analyst Intern.

Supraja Technologies | may 2022- june 2022

- Gained proficiency in Linux.
- Studied penetration testing techniques.
- Developed skills in system defence.
- Acquired knowledge in cybersecurity principles.
- Real life penetration testing.

PROJECTS

- Website Blocker : Can block access to any website within the system.
- Enhanced Port Scanner : Lightweight tool for discovering system info, including IP addresses, OS versions, and open ports.
- Forensic Guard : Developed a secure, tamper-proof system for digital evidence management using blockchain.

ACHIEVEMENTS

- Discovered an IDOR vulnerability enabling unauthorized price manipulation on a website.
- Secured 1st place in an inter-college CTF competition.
